## DETAILED ACTION

### *Response to Election and Amendment*

In the Election/Restriction Response dated 02/07/2005, Applicant has elected the invention of Group **I**, claims **1-20**, drawn to non-volatile memory devices and canceled claims **21-39** drawn to methods of making non-volatile memory devices without prejudice are acknowledged. Accordingly, claims **1-20** are currently pending in this application.

However, the invention of Group **I**, claims **1-20**, also contains claims directed to the following patentably distinct species:

- a) Species **I**, claims **1-6**: A non-volatile memory device comprises a plurality of conductive patterns.
- b) Species **II**, claims **7-20**: A non-volatile memory device comprises a plurality of second active regions in the high voltage region and a plurality of third active regions in the low voltage region.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
